

... SPECIAL EVENT - SATURDAY OCTOBER 19 ...

The Cycle Conservation Club of Michigan is pleased to announce we'll be joining forces with local geocachers on Saturday, October 19, 2024 from 10:00 am - 11:00 am to pick up trash along the Long Lake Motorcycle Trail north of Cadillac. Over the past few weeks, debris from the nearby Wexford County Landfill has blown into portions of the trail. While the landfill cleans up this area several times per year, they need our help to catch up and address this issue head-on. We'll meet in the morning, pick up along the trail and place the trash we collect at the coordinates below. The landfill will come through and pick up the trash we've bagged on Monday after the event.

The coordinates of our meeting place and trash deposit are:

N 44° 20.785 W 085° 23.402

That translates very closely to:

825 E. Long Lake Road
Manton, MI

If you are an off-road rider, please plan on riding the Long Lake Trail after the cleanup, counterclockwise. If you are a geocacher, plan on searching for

new caches after the event hidden on two-tracks nearby. There will be new caches published after the event, unless they are puzzles.

Puzzles will publish after dark the evening before.

Bring gloves and a grabber. Garbage bags, snacks and water will be provided. Let's have some fun and clean up the Long Lake Motorcycle Trail in the process! Hope you can join us!
